Graham Connolly by trade is a microchip designer and holds a MSc in Electronics and Microchip Design from the United Kingdom. He became a (formal) member of Spiritualism in 1993 by joining the Portland Spiritualist church (NSAC). It was like coming home, and provided structure and an understanding to his experiences throughout his life in England. Graham also became a traditional Usui Reiki Master, is a graduate of Spirit Passage's 2-year Shamanism and Shamanic Healing program. In recent years Graham has taught alternative therapies, meditation and mediumship classes. He is a Certified Medium, Commissioned Healer, National Spiritualist Teacher and Ordained Minister with NSAC, having served their National Conventions in the capacity of healer and medium. In each of the last 4 years Graham has also presented, or tutored, at the International Spiritualist Federation.

Sue Jalbert is an Advanced Integrative Energy Therapist (IET), 2nd degree Reiki and Shamanic Practitioner. Sue is also a Commissioned Healer with the NSAC and is completing her studies for Certified Medium. Sue has served Spiritualism for many years and is well recognized within the NSAC for her contributions to furthering Spirit and Spiritualism. She is a wonderful healer and medium.

IET is a very powerful energy healing modality that complements Sue's Spiritual Healing, Reiki and shamanic practices. In her role as drummer for shamanic journeying Spirit utilizes her loving vibration to facilitate healing and wonderful, positive experiences. A true Keeper of the Drum.
